

MedCom Online

MedCom

MedCom has been founded in 1997 originally as a spin-off of the [Fraunhofer Institute of Computer Graphics \(IGD\)](#), the world expert R&D institution for Computer Graphics Technologies. Since 2006 MedCom is an entirely privately owned Company.

MedCom offers innovative and advanced imaging-based products with emphasis on cancer treatment, interventional & surgical navigation and specialized telemedicine solutions (trauma, military & special forces, rural areas, satellite). As an OEM company, MedCom delivers high-tech products to a large number of world-wide acting manufacturers of integrated clinical solutions as well as to high-end clinics in the research sector.
